WEDNESDAY AUGUST 8, 1906

For Congress.  
HON. BEN JOHNSON

Boss Bryan seems to be getting in some of his work over in Illinois or is trying to. What's the difference between Boss Bryan in Illinois and Boss Milt in Breckenridge county? We have as much respect for one as the other. Both are dangerous to free government.

We like the improvements Judge Moorman is making in the court house yard. They will add much to the beauty of that place. Now let him plant flower beds in place of the loafers and he shall have done another wise act. The court house of all the places in the county should be the neatest and cleanest. Go on with your good work Judge.

We take off our hat to our old

friend--no not old, but in the prime of her dear beloved womanhood--Mrs. Hattie Grinnell. No heart beats with a purer love and a more steady friendship than does hers. And no one appreciates that love and friendship more than does the editor of the News. We are glad that her lot is cast in so pleasant surroundings and among a people who appreciate all that is good and true, and beautiful, in a lovely Christian character.

A \$40,000 primary in Kentucky? Who is responsible for this? Is it the present machine in which Gov. Beckham takes so much pride? Is it Legislation in the interest of the masses? Is it Democratic? Does it show a spirit of equal rights to all and special privileges to none? In other words does the average citizen in Kentucky have any show for the offices in this state? There never was a greater piece of trust legislation perpetrated on any free people than this primary election law. And the Beckham machine is responsible for it.

### State Flags.

Most of our states have flags, some of them very peculiar ones. These are carried as the state colors of the militia regiments. Our own is too familiar to need description. "The white standard of Massachusetts" has been seen in the forefront of many battles. New York displays a buff flag, and the state banner of Maryland bears on a ground of blazing yellow the arms and motto of the Calverts. The heraldic design is so disposed as to give Maryland's flag, seen at a distance, somewhat the semblance of a gorgeous crazy quilt, although we suppose to the Marylanders it is more suggestive of the picturesqueness of a royal standard.--Boston Transcript.

### So Far Off.

"My sympathies," says a writer in the Boston Transcript, "were always with an old lady who lived way down in the Maine woods. One day a sportsman came to the door of her little cabin to ask for a glass of milk. As he drank the refreshing beverage they exchanged confidences. When in response to her inquiry he told her that he came from New York city she commiserated with him, saying, 'Laws, sir, it must be hard for you living so far off!'"

## PECULIAR IDEA OF INSANE MAN

In Hancock County--Thought  
Roosevelt Was After His  
Brains And Blood.

Hawesville, Ky, Aug 5.--(Special.)--Estill House, one of the most prominent young men of this county, has been adjudged to be of unsound mind and taken to the Hopkinsville lunatic asylum. He is entirely rational on every point but one. He says that President Roosevelt and George Freeman, a fictitious person with him, are in collusion and have an electric machine with which they are removing his brains and blood. He says that at night Roosevelt hides in his neighbor's barn, and in the day in his house. On two different occasions he went to the barn with a pistol late in the night and unloaded it on his imaginary persecutor. Neighbors took him home on each occasion. He is not expected to live.

## EQUITY PEOPLE

### BOYCOTT OWENSBORO.

Sweeping Resolution is Passed by  
the Yelvington Local of American Society of Equity.

The Yelvington local of the A. S. of E. has started a sweeping boycott on the city of Owensboro and calls upon the other locals of the county to join it. The cause of the boycott is the action of the city government in attempting to collect taxes assessed on tobacco belonging to the society in pooling houses in Owensboro. At the last meeting of the city council this matter was referred to the assessment committee.

The following resolutions were unanimously adopted by Yelvington local union No. 1, of the A. S. of E. at a regular meeting held Saturday afternoon, July 21:

Whereas, it is rumored that the city of Owensboro proposes to tax our pooled tobacco for city purposes and, whereas, we as farmers, feel that we are already being taxed to the limit by it.

Resolved, That if the city of Owensboro persists in taxing said tobacco that we favor securing pooling houses outside the city limits, and further, we recommend that the farmers of Daviess and adjoining counties refuse to take their produce there or sell to bucksters who run into the city. We ask the other locals of Daviess county to consider this matter, for if the rumor is found to be correct we expect to bring it up at the next meeting of the county union.
